

PRESS RELEASE

Haas TCM acquires MC Technologies extending its healthcare Environmental Information Management Systems and Chemical Management Services offering.

(West Chester, PA – USA – November 5, 2007) – Haas TCM announced today the acquisition of MC Technologies LLC, a Tucson, Arizona based cutting-edge leader in environmental information management systems.

This acquisition will broaden Haas TCM's offerings for Environmental Information Management Systems and introduce Chemical Management Services to the healthcare industry. MC Technologies delivers systems and programs designed to protect patients, employees, and communities from hazardous chemicals.

Haas TCM's CEO, Thaddeus Fortin, said "MC Technologies is a true leader in the healthcare environmental information management field and we have been very interested in entering this growing market. Additionally, we will offer MC Technologies' products, systems, and programs to all of our customers."

"This acquisition is consistent with our strategy to invest and grow in Chemical Management Services and those companies that manage and track hazardous and non-hazardous chemicals. We are also thrilled that CEO John Rooney will continue to manage the business."

MC Technologies (www.maxcomonline.com) started in 2003 and has 22 employees. MC Technologies' proprietary MAXCOM™ system has become the gold standard for hazard communication in hospitals and healthcare systems nationwide. MAXCOM's unique categorization system is an ideal tool for Chemical Management Services.

MC Technologies' CEO, John Rooney, said "We are excited to be joining Haas TCM. MC Technologies will now be able to capitalize on significant growth opportunities in both healthcare and other markets. This is the right move for our company, our employees, and our customers."

Haas TCM (www.haastcm.com) is headquartered in West Chester, Pennsylvania USA and has 400 employees and projected revenue of \$235 million (US\$) in 2007 and \$325 million (US\$) in 2008. Haas TCM currently provides chemical lifecycle management services to over 250 customer locations in the US, Canada, Mexico, Argentina, Brazil, Ireland, United Kingdom, France, Netherlands, Poland, Romania, Italy, Turkey, Israel, and China. Current customers are in the automotive, aerospace, electronic, government, semiconductor, defense, transportation, industrial manufacturing, food and beverage, process and energy sectors.
