Press Release

MC Technologies Announces MAXCOM™ Certification Schedule

MC Technologies to deliver regional certification classes for MAXCOM, its state-of-the-art, web-based, chemical safety management solution.

Tucson, Arizona – January 25, 2007 – MC Technologies, LLC, the industry leader in supplying hazardous material management solutions has announced the 2007 schedule for MAXCOM™ Certification. MAXCOM Certification Classes will be held in various cities throughout the United States, starting with a March 14th class in Tucson, Arizona.

These full-day sessions are intended to assist current MAXCOM users in becoming the subject matter expert within their respective organization. Class sizes will be limited to ensure maximum student-teacher interaction. Attendees will receive hands-on instruction on effective hazard communications, general user capabilities and advanced administrative functions. In addition, students will learn how to group chemicals within their database and assign chemicals to specific locations within their organization. Techniques for moving towards safer chemicals and reducing their overall chemical spend will also be discussed.

The certification fee is \$995 per student. Each classroom is equipped with internet-enabled computers and advanced audio-visual equipment. Lunch is included as part of the students registration fee. MAXCOM users interested in attending an upcoming class can register at www.maxcomonline.com/certification.

About MC Technologies

MC Technologies (www.maxcomonline.com), headquartered in Tucson, Arizona, is a company dedicated to improving the reliability and accountability of workplace chemical safety and environmental reporting programs. Through its proprietary chemical categorization and management program, MAXCOM, it is a catalyst in building and enhancing workplace confidence, regulatory compliance and industry

collaboration. Its programs are used by hospitals, manufacturing facilities and industrial plants worldwide.

Registrations

Payment or receipt of purchase order must be received at least one week in advance. Under some circumstances, registrations will be accepted by FAX or mail, with payment made on day of class. No certificate until payment is received.

MC Technologies reserves the right to limit the number of students per class, cancel a class due to low registration or change a date due to inclement weather. In the case of cancellation by MC Technologies, students will receive a full refund.

You may withdraw from any course with a full refund less a processing fee of \$25 provided our office is notified at least one week in advance prior to the start of the course. Beyond that time, you may be responsible for the full registration fee if you register but do not attend. Substitutions are permitted.
